

Grants

Forschungsförderung

We appreciate the continuous support for our research projects by the following grant providers (for details see next pages):

Wir bedanken uns bei folgenden Forschungsförderern für die Unterstützung unserer Forschungsprojekte (siehe Details auf den nächsten Seiten):

Ongoing Projects

Previous Projects

Ongoing Projects

Principal investigator	Title of Project	Grant provider	Time
Rupp	Structure-function investigations of human afamin	FWF	2016-2018
Coassin	Application of Third Generation Sequencing to the genotyping of the Lipoprotein(a) KIV-2 repeat	MUI-Start	2015-2017
Coassin	Development of an ultra-deep sequencing approach for the analysis of the lipoprotein(a) KIV-2 repeat	D-A-C-H Gesellschaft Prävention von Herz-Kreislauf-Erkrankunge e.V.	2015-2016
Fendt	Mitochondrial DNA methylation as epigenetic risk marker for the development of prostate cancer	Österreichische Krebshilfe Tirol	2015-2017
Lamina	A genome-wide approach to evaluate the genetic basis of lipoprotein(a)	FWF	2014-2017
Dieplinger	SAXCESS „Structure-function analysis of the human plasma glycoprotein afamin, a potential drug target in the treatment of metabolic syndrome.“	EU (Marie Curie)	2013-2015
Forer / Schönherr / Weißensteiner / Kronenberg	Scalable Big Data Bioinformatics Analysis in the Cloud	OEAD HR12/2014	2014-2015
Fuchsberger	Analysis of rare variants from sequencing data	FWF Schrödinger-Rückkehrer	2014
Kronenberg	ncRNAPain: Non-coding RNAs in neurogenic and neuropathic pain mechanisms and their application for risk assessment, patient stratification and personalised pain medicine	EU-FP7 No. 602133	2013-2017
Kronenberg	Tirol Score	Land Tirol	2013-2016
Kloss-Brandstätter	Oralkarzinom	Land Tirol	2013-2016
Kloss-Brandstätter	Mitochondrial markers for prostate cancer prognosis and therapy	Oncotyrol	2012-2015
Kloss-Brandstätter	Mitochondrial DNA mutations in oral cancer	Tiroler Wissenschaftsfonds	2012-2014
Kronenberg	German Chronic Kidney Disease Study	Deut. BMBF und	2009-2015

	GCKD	KFH-Stiftung	
Kronenberg	Genetische Determination von HDL und „Genotypisierung LOX Pathway“ und Kandidaten SNPs von SAPALDIA Relevanz	SAPALDIA	2008-2013
Lamina	A genome-wide approach to evaluate the genetic basis of lipoprotein(a)	FWF P26660	2014-2017

Previous Projects

Principal investigator	Title of Project	Grant provider	Time
Dieplinger	Epidemiologische Charakterisierung von Afamin	FWF	2007-2010
Dieplinger	Afamin – neue Diagnose und mögliche Therapie für neuro-degenerative Erkrankungen	Österreichische Nationalbank	2007-2010
Dieplinger	B2: Antisense Wirkstoffe zur Therapie von Hyperlipämie	Österreichische Forschungsförderungsgesellschaft (FFG)	2007-2010
Dieplinger	Afamin – a possible novel biomarker for male infertility disorders	Dr. Legerlotz Stiftung	2006
Kloss-Brandstätter	Mitochondrial DNA mutations in oral cancer	Österreichische Krebshilfe Tirol	2011-2013
Kloss-Brandstätter	Genetische Einflüsse auf den Cholesterinstoffwechsel – ein neuer Zugang	Österreichische Nationalbank	2008-2012
Kloss-Brandstätter	Copy number variations and genetic traits: insights into the origin of cardiovascular disease	MFI	2008-2012
Kloss-Brandstätter	Mitochondrial DNA Mutations in Prostate Cancer	Dr. Legerlotz Stiftung	2007-2009
Kollerits	Identifizierung von Genen der peripheren arteriellen Verschlusskrankheit	Österreichische Nationalbank	2010-2013

Kollerits	Assoziationsstudie zu metabolischen Parametern	Tiroler Wissenschaftsfonds	2010-2012
Kollerits	A sequencing and genotyping approach to shed light on the genetic variation within ARFRP1	Dr. Legerlotz Stiftung	2010-2012
Kronenberg	GOLD III - Genomics of Lipid-associated Disorders III	GEN-AU	2009-2012
Kronenberg	A genome-wide association study to identify susceptibility genes for peripheral arterial disease and cardiovascular disease	Österreichischer Herzfonds	2009-2012

Previous projects - to be continued

Previous projects - continued

Principal investigator	Title of Project	Grant provider	Time
Kronenberg	Apolipoprotein A-IV as metabolic and cardiovascular risk factor (Translational Research Project)	Tiroler Zukunftsstiftung	2008-2013
Kronenberg	Genetische Analyse der Intima-Media-Dicke (IMD) der A. carotis (Klockgether, Ziegler, Kronenberg)	DFG, Germany	2007-2012
Kronenberg	Genetische Einflüsse auf Hämatokrit und Erythrozyten	Tiroler Wissenschaftsfonds	2008-2011
Kronenberg	Genotyping and Sequencing Unit	IFTZ	2008-2012
Kronenberg	Investigation of ATGL mutations and its association with free fatty acid and glucose metabolism	Österreichische Nationalbank	2007-2009
Kronenberg	Oncotyrol Core Facility	Oncotyrol	2008–2010
Kronenberg	Genomweite Assoziationsstudie zu Adiponectin	Tiroler Wissenschaftsfonds	2009–2010
Kronenberg	GOLD II - Genomics of Lipid-associated Disorders II	GEN-AU	2005-2008
Kronenberg	UGT1A1 Polymorphism and coronary heart disease in the Framingham Heart Study	Tiroler Wissenschaftsfonds	2005-2006
Kronenberg	"Methods of genetic epidemiology to analyze haplotype risk structures", Proj.-B10 of SFB 386: "Statistical Analysis of Discrete Structures" (Heid, Kronenberg, Illig and Wichmann)	SFB der Deutsche Forschungsgemeinschaft	2003-2006
Kronenberg	Genetic influence on HDL cholesterol and triglyceride concentrations in hemodialysis patients and its association with atherosclerotic complications	Genzyme Renal Innovations Program, USA	2003-2006
Kronenberg	GOLD I - Genomics of Lipid-associated Disorders I	GEN-AU	2002-2005
Kronenberg	Prospective investigation of the cardiovascular and cerebrovascular risk in patients with intermittent claudication	Österreichische Nationalbank und Österr. Herzfonds	2002-2007
Kronenberg	Danubian Biobank-SSA	EU	2006-2007
Kronenberg	ESCAPE-Study	EU (subcontract)	2005-2006

Previous projects - to be continued

Previous projects - continued

Principal investigator	Title of Project	Grant provider	Time
Kronenberg	Susceptibility gene(s) for type-I diabetes mellitus on chromosome 6q27	Österreichische Diabetes Gesellschaft	2002-2004
Kronenberg	Apolipoprotein A-IV and its role in coronary artery disease	FWF	2000-2002
Kronenberg	Apolipoprotein A-IV in patients with renal disease	Österreichischer Herzfonds, Else Kröner-Fresenius-Stiftung, Dr. Legerlotz-Stiftung	2000-2002
Kronenberg	Segregation, linkage and association studies of small dense LDL particles	Österreichische Akademie der Wissenschaften (APART-Stipendium)	1997-2000
Kronenberg	Lp(a), apo(a) phenotype and apoA-IV and the progression of atherosclerosis in the carotid arteries	Österreichischer Herzfonds	1997-1999
Kronenberg	Untersuchungen zum gestörten Stoffwechsel von Lipoprotein(a) bei Niereninsuffizienz	Österreichische Nationalbank	1995-1998
Lingenhel	Search for mutations in carriers of the minor allele of ATGL SNP5 and SNP9 and its association with free fatty acid and glucose	Dr. Legerlotz Stiftung	2007-2008
